SHAKIL AHMED

UI/UX Designer
Ulipur, Rajshahi, Bangladesh

Summary

I started my UI/UX design journey in 2018, and since then, I have worked with developers, stakeholders, and business owners to understand user needs and goals, as well as the project's business goals. Based on this knowledge, I create high-fidelity structures, prototypes, and designs that effectively convey the user experience.

Before starting any project, I follow a process to achieve better outcomes. This process includes:

* Understanding the problem or opportunity.
* Conducting research to learn more about the users and the market.
* Ideating solutions to the problem.
* Creating wireframes to visualize the solutions.
* Designing high-fidelity mockups that are visually appealing and functional.
* Prototyping and testing the designs.
* Improving the designs based on feedback.
* Launching the final product.

Skills:
• Proficient in design tools such as Sketch, Adobe Creative Suite, Figma, and InVision
• Collaborated with product managers and developers to understand user needs and business objectives
• Conducted user research and usability testing to gather insights and validate design decisions
• Creating wireframes, prototypes, and high-fidelity designs
• Collaborating with cross-functional teams to ensure designs meet business objectives
• Staying up-to-date with the latest design trends and best practices
• Strong understanding of user-centered design principles and best practices
• Experience conducting user research and usability testing

• Excellent visual design skills, with an eye for detail and a strong sense of aesthetics
• Excellent communication and presentation skills
• Worked with various clients across industries to create digital products, including websites and mobile apps
• Communicated design decisions clearly and persuasively to clients and stakeholders
• Managed multiple projects simultaneously and met project deadlines consistently

I am always available to discuss your product user issues or how to generate more revenue for your company. I have a wealth of proficiency in UI UX design, and I am passionate about creating products that are both user-friendly and profitable.

Thanks For your time and Consideration
